High Speed Steel

Introducing Mastercut Tool Corp.'s new *High Speed Steel* product line

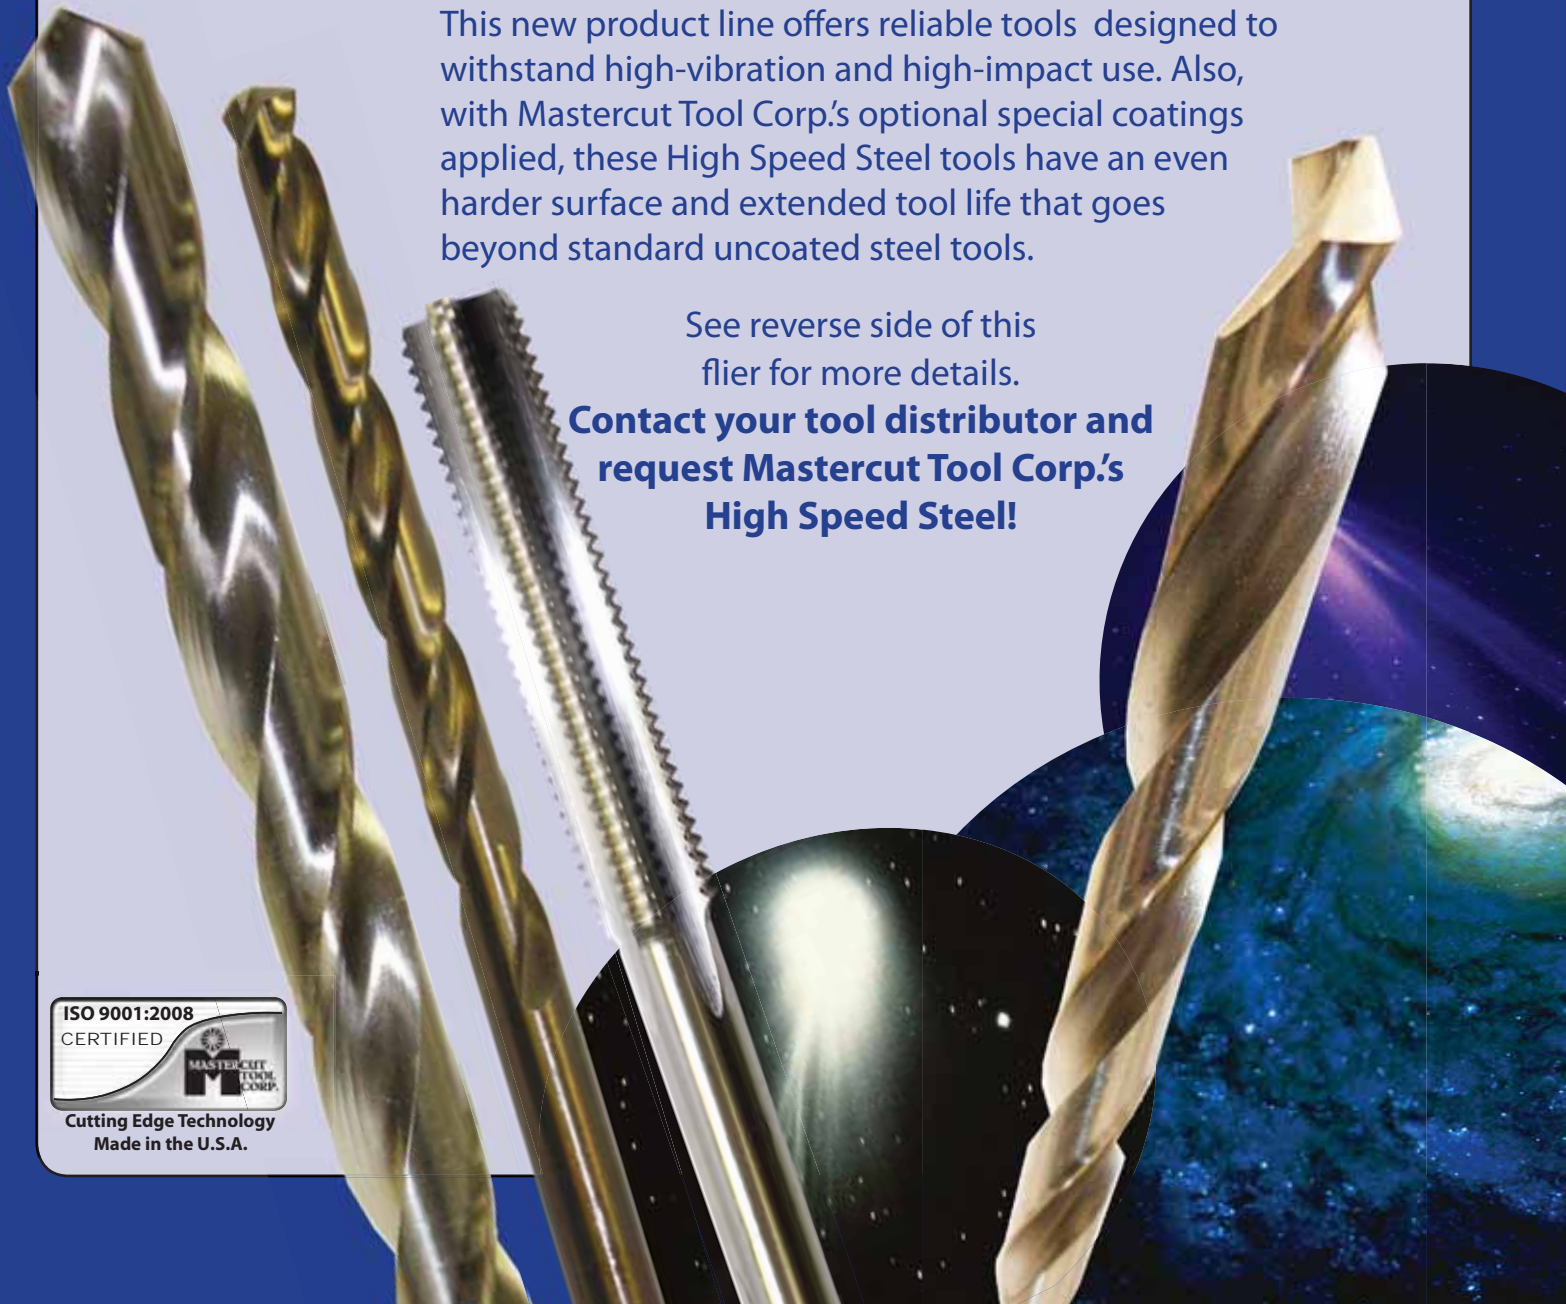

- 15 categories of High Speed Steel drills, including jobber drills, screw machine drills, heavy duty jobber drills, and aircraft extension drills
- 5 categories of taps, including hand taps, spiral point taps, and production grade pipe taps

Coming soon: High Speed Steel and Powdered Metal Endmills!

This new product line offers reliable tools designed to withstand high-vibration and high-impact use. Also, with Mastercut Tool Corp.'s optional special coatings applied, these High Speed Steel tools have an even harder surface and extended tool life that goes beyond standard uncoated steel tools.

See reverse side of this
flier for more details.
